

Member Testimonials

I want to express my sincere gratitude to the Falmouth Chamber as to their professionalism and over-all level of service that my business has received since joining the Chamber last month. I must admit that as a new business owner I was somewhat reticent to join right away, as we were watching every penny after buying our business on Main Street. But, my first mistake was to not give the Chamber my first penny! I hope all new & existing business people that may be considering membership in the Chamber read this & know that this is my endorsement as a neighbor & a business owner to go ahead and join this fine organization. Thanks again for all you do for the business owners in Falmouth.

Headlines Salon and Day Spa

What a wonderful event! As new Chamber members we want to offer our enthusiastic stamp of approval for the stellar evening cruise and wonderful hospitality of the Chamber's staff. Business networking was never more pleasant. As a new competitive presence in the Waterproofing business, getting acquainted in business circles can be daunting to say the least, even with being long-time Falmouth residents with 30 years of industry experience. Your cruise made it possible for us to meet new folks, and even re-connect with old friends. This experience allowed us to network with like-minded, dedicated business people, in a beautiful, relaxing, stress-free setting. As an added bonus, we met many of the professional staff, whom, under Christine's leadership, make the Chamber as successful as it is. We were offered a generous invitation to join this outstanding organization and we couldn't be more pleased to be onboard. While we can't "weatherproof" the Chamber's future outdoor events, we can guarantee that we'll be there to avail ourselves of the Chamber's extensive membership services and courtesies and to support its business-to-business efforts.

Hurricane Weatherproofing & Restoration

I appreciate the help. It makes it much easier to launch into a new venture with a good support system. I felt like that's the kind of environment you guys foster over there. Looking forward to joining.

I want to thank you for an AWESOME event tonight. What a great idea to co-mingle with the MV Chamber – but to have time to ourselves as well. This was a wonderful way to mark the beginning of what I hope to be a long and happy relationship for me with the Falmouth Chamber. I know that it took me a while to get around to joining...and want to let you know that I'm feeling very good tonight about my decision to do so.

I found the Business Educational Series extremely useful and a lot of fun. First, it presented a wonderful networking opportunity with other businesses in the community and with the instructors, many of whom are also local business people. I also learned a tremendous amount about marketing, technology, and how to use the Internet to promote and managed my business. I am planning to take the series again. Although some of the class topics may not be relevant to my business, I am planning on taking the entire series again for the chance to "rub elbows" with my fellow entrepreneurs.

From Dr. Mike's Kitchen

The Business Educational Series proved to be a great experience for me as a new, young business owner in Falmouth. Winter on the Cape was the perfect time to work on my business plan and strategies while continuing to expand my knowledge of marketing techniques, technology, etc. In addition, many talented business owners from the community attended the classes which provided a wonderful networking opportunity. I truly look forward to the classes again this year!

Distinctive Property Services

What wonderful pieces you have done for us! I am proud to be involved both with the United Way event and on the Falmouth Forum Committee. I am sure (fingers crossed) they will produce successful results for us.

The Community Bank

Thanks so much for providing the Habitat notice in the newsletter—we've had quite a bit of interest and inquiries. We are truly looking forward to building partnerships with folks at the Chamber as we prepare for construction this fall on one of the two duplexes on Sam Turner Road.
